

2021 PHOTO SAFARI WORKSHOP

Visit legendary Tanzanian locations rich with photographic opportunities and unparalleled safari adventure. Photograph the wildlife, landscapes, and people of Tanzania. Our journey takes us through the Serengeti, Ngorongoro, and Tarangire wildlife parks where the highest numbers of predators and big game can be found.

This special trip targets the 'Great Migration', a natural wonder and one of life's true bucket list experiences!

Important Trip Information

- No deposits or down payments will be accepted until 3 months prior to the trip. So there is no downside to reserving your spot on this trip!
- 100% trip cancellation refund policy up to 60 days before departure
- Single Supplement Trip Cost = + \$1050
- Bookings, guide services, accommodations, trip extensions, and optional activities handled by Innocent Lyimo, *Destination Tanzania Safaris*. Contact ino@detasa.com for trip information.
- Photography workshop and education managed by Hugh Smith, *Life and Lens Travel*. Contact retendokid@gmail.com for more information.
- Pre or post trip extensions, such as climbing Kilimanjaro or visiting mountain gorillas in Rwanda are popular add-ons and can be arranged through DETASA

PHOTO SAFARI FORMAT

- You do not have to be a photographer or have any experience in photography. This trip is first and foremost an amazing safari adventure—it just happens to be chalk full of photo opportunities and is thus a natural workshop for rapid learning and skill acquisition.
- The safari format consists of early morning and late afternoon game drives, with daily photo talks overlapping with happy hour.
- Lectures span a wide variety of photographic topics including what makes a great image, wildlife composition, lighting, landscapes, portraits, the exposure triangle, equipment, photo editing and more.
- Learning is individualized and each of the vehicles has a walkie-talkie so questions can be posed at any time.
- Guest photo reviews are a constructive and fun way to share your artistry and gain valuable group feedback about your images.
- Any type of camera (compact, mirrorless, bridge, DSLR) is suitable if it has a 'mode' dial (P, A, S, M).
- We limit Land-Rovers to just 3 guests so there's room for your gear, and you can photograph in uncrowded conditions.

Visiting Tanzania, particularly at the peak of the Great Migration, is an incredible experience and our goal is to help you bring home stunning digital memories of the diverse wildlife, amazing culture, and natural beauty you will encounter.
